

Please keep these instructions with your medicine and read them carefully when using your medicine.

Santen

For discomfort and tired eyes when wearing contact lenses

Category 3
drug product

Sante Beautéye Contact

Eyedrops

To relieve discomfort and tired eyes caused by contact lenses

Sante Beautéye Contact is an eye drop for people who want to keep their eyes forever bright and clear.

Heavy feeling in the eyes and discomfort from contact lenses . . . When you wear contact lenses, your eyes are prone to strain.

To relieve eye stress and promote healthy eyes, **Sante Beautéye Contact** contains maximum concentrations* of vitamin B₆ that facilitates turnover (metabolism) in the eyes, vitamin B₁₂ (the "red vitamin") that relieves tiredness of the muscles within the eyes, and neostigmine methylsulfate that relieves tension in the eye muscles.

*Maximum concentrations according to manufacturing license standards for nonprescription ophthalmic drugs

This product can be used while wearing any type of contact lens except colored contact lenses.

Soft

O₂

Hard

Disposable

This product can also be used by those not wearing contact lenses.

*As some eye drops cannot be used while wearing soft contact lenses, be sure to check the instructions on the box and package insert carefully.

⚠ Precautions for use

Consultation

- The following people should consult with their doctor, pharmacist, or registered pharmaceutical distributor before using this product.
 - People receiving treatment from a doctor
 - People who have experienced an allergic reaction to medicine or other substances
 - People who have the following symptom
Severe pain in the eyes

Glaucoma
- If you experience any of the following symptoms after using this product, it may be an adverse reaction. In such a case, please stop using the product immediately, take this information form to your doctor, pharmacist, or registered pharmaceutical distributor and seek consultation.

Area affected	Symptom
Skin	Rash/redness, itchiness
Eye(s)	Redness, itchiness, swelling, stinging pain

- In any of the following cases, please stop using the product, take this information form to your doctor, pharmacist, or registered pharmaceutical distributor and seek consultation.
 - If blurriness of the eyes does not improve
 - If symptoms do not improve within approximately 2 weeks of use

Indication

Discomfort and tired eyes while wearing soft or hard contact lenses, prevention of eye disease (after swimming, when dust or sweat enters the eyes, etc.), bleary eyes (increase in eye mucus, etc.)

Dosage / Administration

Instill 1 to 3 drops at a time, 5 to 6 times daily.

● Please observe the following precautions.

- If administered to a child, the product must be administered under the direction and observation of the child's guardian.
- Do not let the tip of the bottle touch your eyes, eyelids or eyelashes (doing so could cause the solution to become contaminated with eye mucus or bacteria). Do not use the product if it does become contaminated.
- Use only as an eye drop.
- Do not use the product when wearing colored contact lenses.

Ingredients and quantity

Ingredients	Quantity	Action
Vitamin B ₆ (pyridoxine hydrochloride)	0.1%	Activates cell metabolism of eye tissue.
Vitamin B ₁₂ (cyanocobalamin)	0.02%	Relieves eyestrain by revitalizing the ciliary muscles.
Neostigmine methyl sulfate	0.005%	Improves conditions such as tired eyes by improving the focus adjustment mechanism of the eyes.

This product contains the following excipients: edetate sodium hydrate, boric acid, povidone, isotonicizing agent, and pH-adjusting agent.

Precautions regarding storage and handling

- Store in a cool place away from direct sunlight and keep sealed. To preserve the quality of the product, do not leave it in a hot place such as inside a car or near a heater. If the product is left in a hot place, the bottle may become warped causing the solution to leak and degrading its quality. Please do not use the product in such a case. 
- Keep out of reach of children.
- Do not transfer the solution to another receptacle. (Doing so may lead to misuse of the product or may affect its quality.)
- Do not share the product with another person.
- Do not use the product if it has exceeded its use-by date. Even before the use-by date, please use the product as soon as possible after opening the bottle.
- Depending on the conditions of storage, the ingredients may crystallize and form red deposits around the inside of the bottle's tip or on the inside of the cap. If this occurs, gently wipe off the deposits with a clean piece of gauze before using the product.
- The product's red color is due to the vitamin B₁₂ ("red vitamin" cyanocobalamin) in the solution. If you spill any of the solution and stain your clothes when using the product, immediately wash your clothes with water.

Content 12mL

[In consideration of the environment, a bag has not been included with the product. Thank you for your kind understanding.]
