

# Artificial tears eye drop

# Soft Santear®

## Features

Soft Santear is artificial tears with properties similar to natural tears to improve unpleasant symptoms such as dryness of eye / feeling of foreign body due to deficiency of tears.

In addition, because Soft Santear is known to have no effect on contact lens, you can use this product while wearing any type of contact lens (soft / O<sub>2</sub> / hard / disposable). We recommend that people diagnosed with dry eye should visit ophthalmology regularly.

## Indications

Discomfort while wearing soft or hard contact lens, supplementary for tears (dryness of eye), tired eye, blurry eye (increase in eye mucus, etc.)

## Dosage / Administration

Instill 2 to 3 drops at a time, 5 to 6 times daily.

## Active Ingredients / Quantities

Sodium chloride .....	0.1%
Potassium chloride .....	0.4%
